## MTX20

[consulte su precio...](#)

The MTX data collection system is powerful enough to meet your needs today. . . And flexible enough to grow with those needs tomorrow. Modular design lets you start with the MTX-10 for simple in and out punching and easily upgrade to new technologies in the future. The MTX-20 accepts employee validation tables, displays messages and names, and offers interactive functionality including customizable keypad and display using MTX-PRO. It's your choice, based on your needs.

- Easily upgradeable to newer technologies.
- Includes MTX-COM Windows® software.
- Allows downloads of validation tables and employee schedules.
- Poll data.
- Optional full power reserve (3 hours).
- Optional pen wand reader.
- Optional internal 2400 bps or 33.6K modem.
- Optional: two input/output signals with external keyboard interface.
- Customizable to meet your needs.
